To Whom It May Concern:

Back in 2007 I was a first time Mom and didn't know how to search or find a daycare in the way that made me feel secure about where my son was going to be while I worked all day.

In a last desperate attempt to find someone that fit my needs, within the little bit of time that I had left before returning to work, I came across Little Giants Daycare on the 4 C's website. I remember calling her and because I'm a person of character through first impressions, I immediately appreciated her kindness through the phone and met with her a few hours later to tour her daycare.

My son started there that following Monday and he stayed with Claudia until he was almost four years old. My daughter joined her at six months old and is presently there. I can't even begin to explain the tender loving and kindness that she and her staff has given to my children. It hurt me more I think, when I had to move my son on to pre-school. They have taught my children to crawl, to walk, to talk, made sure that they were always well fed and taken care of, gave them the attention and love they needed, was very attentive to their well being and even taught my children Spanish! They know their ABC's and can count and have learned some number and letter recognition and I believe Claudia has provided a lot more than what most family daycares provide. They have become like a second family to my children and love them like their own!

Sadly, I've run out of children to keep there, except for my daughter who will soon have to move on to pre-school too but I would highly recommend Claudia to anyone that needs her service. She is greatly appreciated and will always be remembered.

Sincerely,

Sherry Matthews
